Smoking is strictly prohibited by law

To carry self-heating lunch box is strictly prohibited

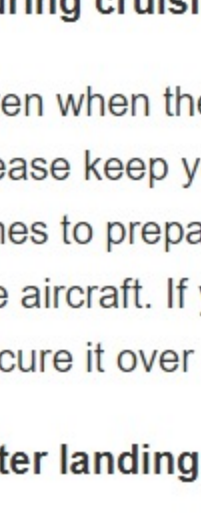

In case of an emergency evacuation, you are not allowed to bring your own baggage and wear high heels

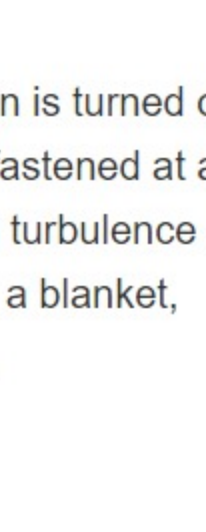

Please set electronic devices to the mode which does not emit electronic signals or turn them off when cabin crew request to do so after all doors are closed.

Passengers seated in the emergency exit row are requested to assist in an emergency evacuation.

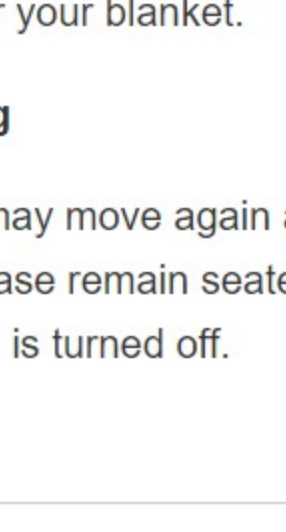

Behavior that jeopardizes the safety of the aircraft is prohibited by law. If the passenger defies Captain's orders, a fine may be imposed

Carrying knives or other restricted items into the cabin is a violation of Japan's Aviation Law.

Always keep your seat belt fastened

Always keep your seat belt fastened

During take-off and landing

Fasten the seat belt securely and make sure it is not loose to protect your body from shocks in an emergency.

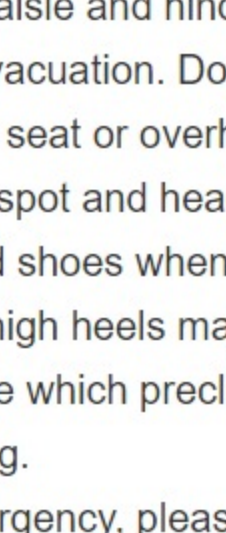

During cruising

Even when the seat belt sign is turned off, please keep your seat belt fastened at all times to prepare for sudden turbulence of the aircraft. If you are using a blanket, secure it over your blanket.

After landing

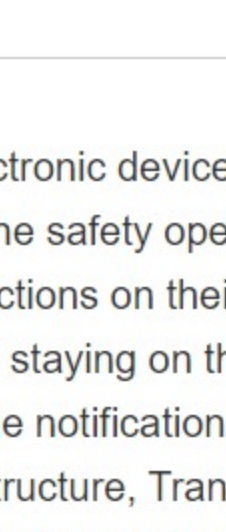

The aircraft may move again after stopping, please remain seated until the seat belt sign is turned off.

機内禁煙のお願い

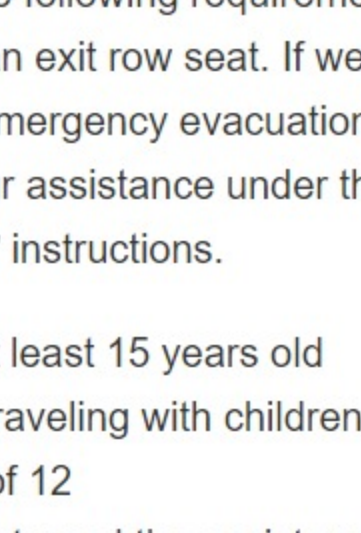

E-cigarettes (e-cigars, electronic pipes, and other personal vaporizers), smokeless cigarettes, and heat-not-burn cigarettes (IQOS, etc.) are also prohibited.

About self-heating lunch box

Self-heating lunch boxes cannot be checked in or carried on board.

Important notice when you evacuate

Leave everything when you evacuate
In case you evacuate with your baggage, it may block the aisle and hinder other passengers' evacuation. Do not take it out from under the seat or overhead bins, but leave it on the spot and head for the exit. No high-heeled shoes when you evacuate. Baggage and high heels may damage or deflate the slide which precludes others from evacuating.
In case of emergency, please follow our instructions.
When sliding down, sit upright to gaze at the landing point. When assisting other passengers, stand next to the slide, pull them up, and direct them to evacuate away from the aircraft to avoid congestion.

Please set electronic devices to the mode which does not emit electronic signals or turn them off when cabin crew request to do so after all doors are closed.

The use of electronic devices on board may interfere the safety operations, so there are restrictions on their use, including when staying on the ground. According to the notification of the Ministry of Land, Infrastructure, Transport and Tourism, the use of restricted electronic devices on board aircraft is prohibited by law.
Violators may be fined up to 500,000 yen.
